# DANGER DANGER DANGER

**With the size of the State's budget deficit, the politicians are letting it be known that everything is 'on the table' to save money.**

- \* *A conversion to a 401(k) type retirement plan*
- \* *Drastically reducing everyone's pension benefits*
- \* *Taking away 28 years of service eligibility for retirement*
- \* *The forcing of all teachers into one inferior state-run health insurance plan*
- \* *A cut to state aid for education*
- \* *Eliminate state worker privatization standards*

**If even one of these issues becomes a reality, it may have a devastating effect on you and the people you serve.**
